The Lunchtime Peel – ExfoliKate® or EradiKate®

15 minutes | \$150 • \$120 | Club Kate Members

Improve texture, even tone, and revitalize your skin with barely any downtime. Choose between a Salicylic Acid peel to minimize breakouts (Eradikate® Peel) or a Glycolic Acid peel for radiance and glow (Exfolikate® Peel). We recommend a series of treatments for best results.

INJECTABLES

Lift, contour, and freshen your appearance to create natural improvements without surgery. Our FDA approved fillers instantly smooth wrinkles, reduce folds, and plump and shape lips and cheeks. Neurotoxins such as BOTOX® and Dysport® help to minimize expression lines and reduce wrinkles. Our expert injectors utilize the safest injection techniques to create the subtle or dramatic result you desire. If you're unfamiliar with or have never used injectables before, we recommend scheduling a consultation with a nurse or nurse practitioner to assess your unique skin goals and needs. Most agreed upon services can be added to the end of your consult.

With PRP | 60 minutes | \$1,250
Without PRP | 45 minutes | \$775

The Triple Threat Gold Cocktail gives your skin smaller pores, brighter tone, extra hydration, reduced fine lines, and that GLOW we all crave. This revolutionary therapy utilizes 24k gold needles to deliver micro-injections of a custom blended cocktail of hyaluronic acid fillers, neuromodulators (aka Botox® and Dysport®), PRP, and vitamins just below the surface of the skin. Excellent prior to a large event, the Triple Threat Gold Cocktail is the ultimate in clinical luxury.

KATE SOMERVILLE EXCLUSIVE THERAPIES

These targeted treatments combine multiple modalities and technologies to address specific concerns. Our Skin Health Experts have designed these treatments through their personal experience in delivering results to our loyal clientele.

Scar Smoother for Face and Body 90 minutes | Half Face | \$1,200 • \$1,080 | Club Kate • Series of 3 | \$3,250
120 minutes | Full Face | \$1,575 • \$1,415 | Club Kate • Series of 3 | \$4,250

Work to banish scars by combining traditional Microneedling with Endymed™ Pro and Intensif RF therapies. Endymed™'s Intensif handpiece utilizes sterile gold plated, microneedles to ensure consistent, effective, and safe results while also delivering Radiofrequency energy through the skin with minimal discomfort. Both technologies work to help break through the scar tissue that is pulling down the skin in depressed or ice picked acne scars. This combination of treatments also triggers skin's innate ability to heal itself – together collagen and elastin fibers are stimulated in skin's deep layers as well as on the surface for a noticeably smoother and more even texture.

The Power Couple 75 minutes | \$725 • \$650 | Club Kate Members • Series of 3 | \$1,850

Brighten and improve radiance, address stubborn hyperpigmentation, and smooth skin texture with this combination mandelic peel and Microneedling treatment. Mandelic is a gentle yet powerful Alpha Hydroxy Acid (AHA) that smooths skin and gives serious glow. When combined with same day Microneedling, it maximizes the peels results to reveal brighter, smoother skin.

Fire and Ice Body Contour *Add Endymed Pro to any Coolsculpting Treatment Package*
60 minutes | \$500 (regularly \$800) • Series of 3 | \$1,350

Coolsculpting helps to reduce stubborn fat. Endymed™ Pro tightens the skin. With these breakthrough body technologies working in tandem, achieve a more visibly sculpted and toned physique. Endymed™ Pro will be performed 6 weeks post Coolsculpting™ to further define results.

Rosacea Combination Therapy 75 minutes | \$805 • \$725 | Club Kate Members

Rosacea is a chronic and long-term skin condition that affects many people. While there is no cure for rosacea, certain treatments can alleviate the inflammation associated with it. We have had great success treating clients with a regular program of Laser Genesis® and Limelight® performed same day to assist in reducing redness, brightening skin, and improving the overall appearance of rosacea conditions. Monthly treatments recommended. Includes Mini-Facial.

LASER AND IPL TREATMENTS

Our laser-based therapies treat a variety of skin conditions including acne, scarring, fine lines and wrinkles, pigmentation, laxity, and textural concerns with minimal downtime. Featuring cutting edge technologies such as Titan®, Limelight® IPL, and Laser Genesis®.

Laser Genesis® Skin Rejuvenation

One of the Kate Somerville Clinic’s signature therapies – Laser Genesis® stimulates collagen, tightens pores, improves acne and reduces redness with no downtime. This versatile laser is gentle, fast, painless, and non-invasive and is suitable for all skin types. Excellent entry point into medical esthetic services and to complete any skincare regimen.

TITAN® Non-Surgical Face Lift

Time will vary | \$400+

In this painless, safe procedure, infrared light is applied to the skin using the Titan® laser, causing it to tighten and plump out for a more youthful look. By heating the skin’s lower layers, Titan also stimulates collagen production for results that improve over time, especially with multiple sessions.

EXCEL V Global® Flawless Laser

Time will vary | \$500+

With a goal to rid you of skin flaws, the Excel V-Global® Treatment helps eliminate visible pigmentation, redness, ‘spider veins’ and similar blemishes in one swift session. Excel V-Global® is a powerful and breakthrough laser treatment that addresses vascular damage like prominent leg veins and rosacea.

LIMELIGHT® IPL PhotoFacial

Limelight PhotoFacial addresses sun damage, age spots, discoloration, and texture concerns utilizing a medical grade, non-invasive intense pulsed light (IPL) therapy. Ideal for any part of your face, neck, and décolleté, Limelight® has the added benefit of improving skin tone with minimal to no downtime.

SPECIALTY MEDICAL BY CONCERN

Skin Health Experts Clinic is committed to remaining on the cutting edge of medical aesthetics and is always introducing new treatments in addition to tried and true technologies. Explore the benefits of Microneedling, PRP and PRF, Endymed™ radio frequency therapy, and VI Peels.

Endymed™ 3D Radio Frequency for Face and Body

Time will vary | \$400+

A painless, non-invasive dermal-heating technology that helps to visibly reduce the effects of aging such as wrinkles, skin laxity, and cellulite. 3DEEP dermal-heating technology reactivates skin's natural collagen production in the deepest layers. Targeted areas appear significantly tighter, smoother, and more contoured. If you're unfamiliar with or have never had this service before, we recommend scheduling a consultation with a nurse or nurse practitioner to assess your unique skin goals and needs. Most agreed upon services can be added to the end of your consult.

Endymed™ Intensif Microneedling

Time will vary | \$500+

Intensif is a non-surgical and noninvasive Microneedling tech designed to diminish the look of shallow and deep wrinkles, pores, stretch marks, acne, and acne scars. The smooth, gliding technique of the motorized microneedle RF technology delivered through gold non-insulated needles allows for quick application and better collagen remodeling of the skin. Post-treatments, clients find that the skin continues to improve, for even more significant results. If you're unfamiliar with or have never had this service before, we recommend scheduling a consultation with a nurse or nurse practitioner to assess your unique skin goals and needs. Most agreed upon services can be added to the end of your consult.

Endymed™ FSR (Fractional Skin Resurfacing)

45 minutes | \$750+

The ultimate treatment for skin resurfacing, rejuvenation, wrinkle reduction, tightening and scar reduction for optimal, painless collagen remodeling. Works great on delicate areas including around the eyes, mouth and décolleté with minimal to no downtime. If you're unfamiliar with or have never had this service before, we recommend scheduling a consultation with a nurse or nurse practitioner to assess your unique skin goals and needs. Most agreed upon services can be added to the end of your consult.

PDO Thread Lift

Time will vary | \$500+

Instantly lift loose neck and facial skin with the PDO Thread Lift procedure. An effective alternative to a facelift, this safe and minimally invasive procedure helps to visibly rejuvenate and refresh skin's appearance by stimulating collagen and lifting delicate, sagging tissue. The PDO Threads are gently inserted into targeted locations to offer lift and support while creating a foundation for new collagen production. This popular treatment is an excellent choice for those looking to lift the brows, cheeks, jowls, upper neck or for the improvement in the appearance of marionette and other fine lines. If you're unfamiliar with or have never had this service before, we recommend scheduling a consultation with a nurse or nurse practitioner to assess your unique skin goals and needs. Most agreed upon services can be added to the end of your consult.

VI Peel

30 minutes | \$325+

For harmless but unwanted hyperpigmentation, the anti-aging VI Peels by Vi Aesthetics helps restore skin tone, soften fine lines and wrinkles and polish skin texture for a smooth look. The swift and pain-free treatments help combat the effects of aging, sun damage, acne scarring, texture concerns, and environmental stressors. The minimal downtime on this self-neutralizing peel is almost as stunning as the dramatic results. Choose from VI Peel, Vi Precision Plus, VI Acne, and VI Acne Precision Plus.

Microneedling

60 minutes | \$600 • \$540 | Club Kate Members • Series of 3 | \$1500

To give skin's collagen a boost, promote healthy circulation and benefit skin elasticity, a 60-minute Microneedling treatment stimulates natural collagen production in the body via a process called "wound healing." A purifying cleanse begins the treatment, with a gentle numbing cream applied next. Minuscule, micro-fine needles are utilized along with a serum to activate cellular regeneration, causing a tightening and lifting effect. Once the proper channels have been activated, we apply a calming mask to relax and soothe your skin. Recommended to treat acne scars, fine lines, hyperpigmentation and stretch marks.

PRF Therapy

The newest addition to the Skin Health Experts medical portfolio! PRF works on the same concept as PRP however Platelet Rich Fibrin (or PRF) contains twice as many stem cells, growth factors, and platelets as PRP. As there are no anticoagulants utilized in PRF it has the added benefit of being 100% natural. Your concentrated blood plasma and fibrins help to rejuvenate the skin and enhances the overall results of many applications, including Hair Restoration. A wonderful addition to Microneedling, it can also be used to plump and add volume via injection as an alternative to dermal fillers, particularly in the under-eye area.

	DURATION	PRICE	CLUB KATE PRICE
Add PRF to Microneedling	15 minutes	\$550	\$495
PRF Injection	45 minutes	\$800	\$720
PRF for Under Eye	45 minutes	\$900	\$810
PRF Hair Restoration	60 minutes	\$1,100+	

Cosmelan™ Depigmentation Treatment

30 minutes | \$900 • \$810 | Club Kate Members

Cosmelan is a depigmentation treatment designed to improve the appearance of melasma, dark brown spots, and discoloration from sunspots. Available to all skin types, we begin the two-phase treatment by administering an on-site consultation and skin preparing facial treatment. The treatment not only lightens visible discoloration, but it also inhibits the cycle which causes pigment to surface later, making future visible signs of damage less likely. Then, a topical, simple to follow at-home regimen is recommended and follow-up appointment scheduled. Price includes a two-week follow-up visit.

Dermaplaning

15 minutes | \$200 • \$180 | Club Kate Members

Instantly reveal smoother skin that's more even in tone and texture with this effective physical exfoliating treatment. Our technician uses a medical-grade precision blade to gently slough away dead surface skin cells while removing excess facial hair to bring life back to dull skin. This procedure is a favorite in the industry as skincare better penetrates and fully absorbs while makeup applies smoother and more evenly.

Hyfrecator

15 minutes | \$160 • \$128 | Club Kate Members

Hyfrecator, also known as "electrosurgery," uses electrical currents to alter or remove unwanted benign skin blemishes and address issues from skin tags and milia to sebaceous hyperplasia and capillary angiomas such as port-wine stains or strawberry naevi. See results in as little as one to two treatments with minimal downtime.

BODY TREATMENTS

Tone, tighten and contour your physique with safe, FDA approved medical therapies such as Coolsculpting and Endymed Pro, with additional abilities to address stretch marks and scarring.

Coolsculpting™

45-60 minutes per Cycle | \$500-\$1500 per cycle

Fight fat in a flash with Coolsculpting™. This gentle and effective cooling treatment targets fat cells beneath the skin. Fat cells are frozen and crystallized. Over time, your body naturally processes the fat and eliminates the dead cells, leaving you with a more visibly sculpted physique. Book a complimentary consultation, and our Clinicians will discuss a holistic approach to achieving your body reshaping goals. Together, you'll look at your entire body from different angles and then focus on specific areas you want to improve.

EndyBody

60 minutes | \$800 • \$720 | Club Kate Members

The revolutionary Endymed™ PRO is a non-invasive aesthetic body-toning treatment that offers particularly good results after weight loss or other body composition changes. Designed by experts in their respective fields of dermatology and radio frequency tech, effects include an overall reduction in cellulite as well as shaping and contouring for skin of all types and colors. To tighten and tone with no downtime and impressive short- and long-term results, allow us to design your custom tightening and contouring solution.

NEW!
